Blue

Yellow

Orange

Purple

The swatches above should keep roughly their hue in dark mode.

hue-rotate(180deg) after inversion restores red as red, blue as blue.

3. Photo passthrough

The sunset below should keep its warm colors (not turn into a negative):

Same image, smaller placements:

Text under the photos still inverts to light-on-dark as usual.

A red rule above stays red-ish; it is vector, not a photo.
